

Tremap Virtual Labelling for Private Gardens

Fed up with physical labels?

Map and label digitally.

- ✗ Expensive and time-consuming to maintain
- ✗ Environmentally damaging
- ✗ Damaging to trees
- ✗ Easily lost, perish, fade and “disappear”
- ✗ Limited information

- ✓ Cheaper to maintain. Instantaneous labelling.
- ✓ Environmentally friendly – no plastic, no metal
- ✓ Zero damage to trees/woody plants
- ✓ Zero maintenance
- ✓ Track *much* more information

Tremap Features for Private Gardens

- 1) Map and digitally label up to 200 trees and plants on your phone (more options for bigger collections available)
- 2) Cloud based Tremap Web Portal – View/edit/add collection information on your desktop.
- 3) Share access for up to 3 users – lets others you trust add/edit collection information.
- 4) Attach up to 3 photos per tree – record pruning, flowering and other details
- 5) Secure your garden – reserve access to your digital collection and virtual property boundaries.
